

Membership Form

Florida Renewable Energy Association

Florida Renewable Energy Association (FREA) is a non-profit 501-3c organization incorporated in Florida dedicated to expanding the use of clean, renewable energy technologies through public awareness, political advocacy, and individual initiative.

We believe all Floridians have an inherent right to a clean, sustainable environment.

We believe that environmental stewardship is the responsibility of every Floridian and it is our duty to leave a legacy of healthy communities and natural resources for our future generations.

We believe innovation of through and action through access to renewable energy education can create enduring and positive change.

We believe that Floridians can pursue clean, renewable sources of energy without compromising opportunities for sustainable economic growth.

To join complete this form and include \$30.00 per year payable to FREA and mailed to address below or join on our web site.

First Name _____ Middle inl. _____ Last Name _____

Address _____

City _____ State _____ Zip _____

Home Phone number _____ Other Phone _____
_() _____

Email _____ optional ? _____

FREA is the Florida Chapter of the American Solar Energy Society (ASES). Participate with more than 10,000 people across the country interested in solar and other renewable energy technologies. Established in 1954, the American Solar Energy Society (ASES) is the nation's leading association of solar professionals and advocates. ASES is the U.S. section of the International Solar Energy Society. As a member of the Florida Chapter, you benefit from all of the national and international activities. You can join both organizations for an additional fee on the ASES web site at www.ASES.org. Local Contact Bill Youna at 321-264-0514.

FREA, P.O. Box 560272, Orlando, Florida, USA, 32856-0272
